

Project Name	Objective	Grant Award	Ending Period/Status	NOTES
World Bank				
Multisectoral Early Childhood Development Project	The objective of the Project is to improve coverage of multisectoral early childhood development services	\$27M	Ongoing	
Pacific Resilience Project II	Is to strengthen early warning systems, climate resilient investments in shoreline protection, and to provide immediate and effective response to an Eligible Crisis or Emergencies	\$78.9M	Ongoing	
RMI- Urban Resilience Project	To strengthen the resilience of select urban areas in the Republic of the Marshall Islands to the impacts of natural hazards and climate change.	\$30M	Ongoing/2028	
Project for Strengthening Public Financial Management	To improve the completeness, reliability and timeliness of Government's annual financial statements, and the availability of reliable socioeconomic statistics.	\$9M	Ongoing	
RMI Education and Skills Strengthening Project	To improve equitable secondary, post-secondary technical, vocational education and training and education intermediation services	\$10M	Ongoing	
Sustainable Energy Development Project	To increase the share of renewable energy generation and enhance the reliability of electric supply and improve energy efficiency in the Marshall Islands	\$34M	Ongoing	
Digital RMI	The development objective of the Project is to expand access to the internet, promote private sector investment in climate resilient digital services and establish the critical foundations for digital government services and the RMI digital economy.	\$30M	Ongoing	
Pacific Regional Oceanscape Program for Economic Resilience	The objective of the Project is to strengthen regional collaboration and national capacity for the management and the sustainable development of the oceanic and coastal fisheries sector in Republic of the Marshall Islands	\$18M	Ongoing	
DPO/Cat DDO	Enhancing Fiscal Management and Building Disaster and Climate Resilience Development Policy Operation with a Catastrophe Deferred Drawdown Option for Marshall Islands are to: (i) enhance fiscal management; and (ii) build disaster and climate resilience	\$9M DPO; Cat-DDO \$12M	Ongoing	
Renewable Energy Generation & Access Increase	To increase the share of renewable energy generation and improve electricity service in targeted Islands and strengthen the capacity (including gender inclusion) of key energy sector entities	\$60M	In the Pipeline; Going to Board end of 2024 for Approval	
Pacific Strengthening Correspondent Banking Relationship	Enable continuous access to correspondent banking services in the participating Pacific Island countries.	\$9M	Approved August 2024; Ongoing	
Asian Development Bank				
Majuro Power Network Strengthening Project	Installs an advanced metering infrastructure (AMI) in the Majuro power distribution network to enable MEC to collect data on physical energy flows, reduce technical and commercial losses and improve system reliability	\$502,001.00	July 31, 2024 (Revised)	
Pacific Disaster Resilience Program (Phase 3)	The program will improve the resilience of RMI to disasters triggered by natural hazards and health emergencies. It will support policy actions strengthening resilience to disasters and provide a source of financing for timely emergency response and early recovery	\$6,000,000.00	November 3, 2024	
Pacific Disaster Resilience Program (Phase 5)	It will improve the resilience of the Pacific Islands including Marshall Islands to disaster triggered by natural hazards and health emergencies. It supports reforms to strengthen climate and disaster risk management including health and emergency preparedness	\$6,000,000.00	August 30, 2027/Active	

Project Name	Objective	Grant Award	Ending Period/Status	NOTES
Enhancing Gender Equality Outcomes in the Pacific Developing Member countries	The technical assistance (TA) for Enhancing Gender Equality Outcomes in Pacific Developing Member Countries will support Pacific developing member countries (DMCs) of the Asian Development Bank (ADB) to enhance gender equality results. It will help build the capacity of executing and implementing agencies in preparing, implementing, and monitoring project gender assessment and action plans. The TA will provide continued resources to sustain the achievements made under the previous TA, while also including support for project preparation and innovative approaches to gender mainstreaming.	\$2,600,000.00	December 2029/Active	
Strengthening Resilient & Sustainable Urban and Water Service Delivery in the Pacific	The technical assistance (TA) will strengthen the resilience to climate and disaster risks and increase sustainability of urban service providers (USPs) and urban utility operators in Pacific developing member countries (DMCs).	\$4,850,000.00	January 2029/Active	
Pacific Region Infrastructure Facility Coordination Office for Quality, Climate and Socioeconomic Resilient Infrastructure	To improve the quality and coverage of infrastructure and service delivery to 14 Pacific developing countries by (i) strengthening coordination among PRIF partners (ii) support climate change activities (iii) improving infrastructure planning and management and (iv) support regional integration	\$13.45M	December 2027/Active	
Improving the Quality of Basic Education in the North Pacific	Improve student learning outcomes in literacy and numeracy through set of comprehensive and sustained initiatives (i) Teachers in primary education are better prepared (ii) Capacity to use student assessment to improve learning strengthened (iii) Access to and usage of teaching and learning resources and materials for literacy and numeracy expanded (iv) Educational leadership and management of schools, including parent and community	\$4,661,590.87	1/31/2026	
Ebeye Water Supply & Sanitation- Additional Financing	The project will address factors which result in the high incidence of waterborne disease on Ebeye: (i) Secure and safe supplies of fresh water ensured (ii) Effective and efficient sewerage services provided (iii) Hygiene awareness enhanced and hygiene behaviors improved (iv) Secure electricity supply for water supply and sewerage operations ensured (v) Financially and technical sustainability of KAJUR improved	\$1,930,449.01	June 30, 2024 (Revised)	
Energy Security Project	Rehabilitate the fuel handling and storage facilities built in 1981 and operated by MEC in Majuro	\$3,411,408.09	6/30/2025	
Energy Security Project - Additional Funding	Support the implementation of the agreed management action plan to improve MEC's long term viability; and support disaster risk reduction for the energy sector	\$7,000,000.00	6/30/2026	
Public Financial Management Project	Enhance the institutional capacity of the MOF to effectively implement (i) PFM reforms and (ii) SOE reforms	Initial Funding (\$2,000,000.00) Additional Funding (\$500,000.00) Second Additional Funding (\$2,000,000.00)	12/31/2024	
Public Financial Management Project - 3rd Additional	Enhance the institutional capacity of the MOF to effectively implement (i) PFM reforms and (ii) SOE reforms	\$3,830,000.00	6/30/2027	
Ebeye Solid Waste Management Project	Establish a sustainable and effective solid waste management system in Ebeye, RMI by (i) Building a high-temperature incinerator and upgrading the dump site, (ii) upgrading and replacing equipment for municipal solid waste management (iii) Strengthening institutional capacity to sustain SWM services. This project will also prevent the spreading of the COVID-19 and other transmittable and waterborne diseases through improved medical waste disposal and strengthened medical waste management capacity	\$6,500,000.00	6/30/2028	

Project Name	Objective	Grant Award	Ending Period/Status	NOTES
Urban Service Improvement Investment Project (Integrated Urban Services and Resilience Improvement Project	<p>Output 1: Resilient, inclusive and sustainable water supply and sanitation services in Majuro improved with construction and opeartion of a desalinataion plant in Rita (MIHS), (i) upgrading of existing desalination plant at the Majuro Hospital; (ii) upgrading of water treatment plants A and C; (iv) rehabilitatio of up to 10 miles (16km) of water supply mains; (v) refurbishment of four sewage pump station; (vi) strengthen MWSC's financial and operational sustainability including development of tariff reform policies; (vii) and installation of multi-hazard early warning system.</p> <p>Output 2: Circular economy and waste services deliveryin Majuro enhance by (i) rehabilitate existing landfill site in Rairok and provision of new equipment for MAWC to improve its landfill operations; (iii) provide additional covered</p>	\$52,500,000.00	In the pipeline	
Marshall Islands Electrification Project Phase 2	To increase the reliability of the distribution grid and efficiency to integrate renewables	\$10,000,000.00	In the pipeline	
Women & Youth Skills, Empowerment and Resilience Project	The project will increase access to livelihood training opportunities and support services for women and at- risk youth in the Marshall Islands, including through new facilities and targeted quality skills and livelihood development and support programs. Operation Priorities 1: Addressing remaining poverty and reducing inequalities OP 2: Accelerating progress in gender equality OP 3: Tackling climate change, building climate and disaster resilience and enhancing environmental sustainability OP 4: Strengthening governance and instituional capacity	\$19.70M	Approved November 6, 2024	
European Union				
Addressing Climate Vulnerability in the Water Sector (ACWA) in the Marshall Island	To improve household and community rainwater harvesting and storage structures and to increase resilience of water supply in all RMI's 24 neighboring Atolls and Islands and secure groundwater resources from contamination due to inundation caused by wave overtopping of seawater	\$6.1M	2020-2027	EU covered RMI's contribution for the GCF Funded Project that is currently being implemented by EPA working collaboratively with UNDP
